

Greetings!

Thank you for visiting our web page! The Regulatory & Legislative Interest Group (“Regs & Legs”) is a fantastic, innovative and cutting-edge IG that is constantly looking to place our thumb print on our industry. Our eclectic group of professionals, spanning all disciplines and functions, focuses on three primary things: 1) educating, 2) sharing ideas and 3) providing thought leadership. Whether we publish articles in the CPCU Society’s technical journal, host webinars, share information via social media or a chat room, host workshops at the CPCU Society’s annual meetings, or engage on a local level in our communities, we are a very active, relevant IG!

Come join us! We are constantly looking for new talent from individuals whom want to plug in and contribute. As mentioned, you do not need to be a lawyer or compliance professional to join our group! We have contributors from IT, Claims, Consulting, Risk Management, regulators and many others whom are valued, contributing members of our broader IG. We’d love to hear from you!

Please feel free to reach out and contact me should have any questions. I look forward to hearing from you and, please, check out our website further for helpful links and tidbits of information to help you!
